INDEX.

A

Abbott, W. O., *see* Folley, J. H., 311
Abell, R. G., and Page, I. H., reactions of peripheral vessels of rabbits in hypertension and in response to injections of angiotonin, 914
Abramson, E. B., *see* Fishback, D. B., 535
Abscesses, experimental brain, use of sulfonamides in prevention of, 310
Absenteeism, industrial, reduction of, by preseasonal immunization against catarrhal illness, 469
Acetylcholine and choline, electrical potential of, in "oil" cells, 913
Acetylphenylhydrazine anemia, 2. Bile pigment elimination, etc., 848
Achlorhydria, essential, diagnosis, incidence, and significance of, 419
Achylia gastrica, observations on etiologic relationship of, to pernicious anemia, IX, 18
Adams, F. D., *see* White, P. D., 52
Adenoma, pancreatic, fatal hyperinsulinism with cerebral lesions due to, 363
Adolescence, insufficiency of immune globulin in prophylaxis of measles during, 880
Aggeler, P. M., *see* Sweet, N. J., 665
Agranulocytosis, preliminary report on treatment of, with sulfathiazole, 819
Alanine containing C^{13}, metabolism of, 466
Alcoholic addiction, conditioned reflex therapy of, V. Follow-up report of 1042 cases, 525
Alcoholics, chronic, post-repeal study of, 300, 120
Altschule, M. D., *see* Klainer, M. J., 215
Amblystoma punctatum, transplantation of aneurogenic forelimbs in, 915
Amino-acid levels, plasma, in health and in measles, scarlet fever and pneumonia, 668
acids, iodinated, and proteins, Roentgen ray diffraction studies in, 309
Amyloidosis, standardization of Congo red test for, 246
Anderson, B. G., *see* Sadusk, J. F., Jr., 397
T. F., *see* Mudd, S., 778
studies with electron microscope, 778
Anemia, acetylphenylhydrazine, 2. Bile pigment elimination, etc., 848
Anemia, auto-hemolysinic, with auto-agglutination; improvement after splenectomy, 313
pernicious, hypoprothrombinemia in, 187
observations on etiologic relationship of achylia gastrica to, IX, 18
relation of, to solar radiation and skin cancer, 854
principle, antipernicious, action of, on blood picture of opossum pouch-young and rat embryos, 836
sickle cell, heart in, 34
Anesthetics, influence of, on balance between chemoreceptor and central control of respiration, 777
Aneurogenic forelimbs, transplantation of, in amblystoma punctatum, 915
Angiotonin, reactions of peripheral vessels of rabbits in hypertension and in response to injections of, 914
Antianemic principles, active and inactive, influence of, upon erythrocytes of immature opossum (*Didelphys virginiana*), 191
Antibody and pneumococcal capsular polysaccharide in pleural exudates, 376
Antidiuretic action of minute amounts of pitressin, technique for demonstrating, 776
Antipernicious anemia principle, action of, on blood picture of opossum pouch-young and rat embryos, 836
Aortic body and carotid reflexes in unanesthetized dogs, 779
insufficiency, syphilitic: asymptomatic phase, 202
Aortitis, syphilitic, early diagnosis of, 54
Apperly, F. L., relation of pernicious anemia to solar radiation and skin cancer, 854
Arthritis, chronic, and intestine, 698
rheumatoid, evaluation of iontophoresis using different vasodilating drugs for treatment of, 580
Atrophies, muscular, treatment of, with vitamin E, with note on diagnosis and electromyograms, 558
Auricular fibrillation, age, sex and race relationships of, 788
and flutter, paroxysmal, prolongation of P–R interval in patients with, following myocardial infarction, 215

Auto - agglutination, auto - hemolysinic anemia with; improvement after splenectomy, 313
Avitaminosis, experimental, spontaneous beriberi of monkey as compared with, 100
Axillary and subclavian vein, primary thrombosis of, 340
Aycock, W. L., familial aggregation in poliomyelitis, 452

B

Baber, E. A., *see* Goldman, D., 354
Bacterial cell as shown by electron microscope, 778
Bacteriostatic effect of sulfonamide drugs, comparison of, upon growth of 25 strains of *Streptococcus viridans*, 577
Barbituric acid derivative, effect of, on lobeline circulation time, 349
Barnes, T. C., *see* Beutner, R., 913
Bassler, A., intestine and chronic arthritis, 698
Beerman, H., *see* Stokes, J. H., 608
Beizer, L. H., Hall, B. E., and Giffin, H. Z., diagnosis of multiple myeloma by sternal aspiration, 829
Belk, W. P., *see* Cain, J. C., 359
Bercovitz, Z., *see* Page, R. C., 566
Beriberi, spontaneous, of monkey, as compared with experimental avitaminosis, 100
Berliner, K., and Lilienfeld, A., effect of barbituric acid derivative on lobeline circulation time, 349
Beutner, R., and Barnes, T. C., electrical potential of acetyl-choline and choline in "oil" cells, 913
Bilateral renal disease in persistent hypertension, 807
Bile, calcium; clinical and pathological study, 413
  pigment elimination, etc., Part 2 of acetylphenylhydrazine anemia, 848
Biliary tract disease, danger of procrastination in, until irreversible liver and kidney changes occur, 231
Blaney, L. F., *see* Geiger, A. J., 219
Blood and urine, amount of iodine in, in patients with diabetes insipidus, 708
  citrated, in man, observations on oral administration of, II. Effect on stools, 409
  phosphorus metabolism of, of patients with leukemia and polycythemia, 83
  picture of opossum pouch-young and rat embryos, action of antipernicious anemia principle on, 836
  pressure, average, effect of parity on, and on incidence of hypertension, 333
  regeneration, morphologic picture of, and spleen, relationship between, 28
Blood velocity, objective method of determining (fluorescein method), 535
Blotner, H., amount of iodine in blood and urine in patients with diabetes insipidus, 708
Boeck, ocular lesions in sarcoidosis of, 300
Boharas, S., Hollander, L., and Goldsmith, M., early diagnosis of syphilitic aortitis, 54
Bone, eosinophilic granuloma and certain other reticulo-endothelial hyperplasias of, etc., 673
Brady, M. R., reduction of industrial absenteeism by preseasonal immunization against catarrhal illness, 469
Brain abscesses, experimental, use of sulfonamides in prevention of, 310
Brink, F., and Bronk, D. W., periodicity of excitatory process in nerve, 155
Bronchial occlusion and cavity healing, 177
Bronchopneumonia of unknown etiology in a girls' school, 263
Bronk, D. W., *see* Brink, F., 155
Broz, W. R., *see* Voegtlin, W. L., 525
Brucella endocarditis, case of, with clinical, bacteriologic, and pathologic findings, 797
Buck, V., *see* Somerfeld-Ziskind, E., 110
Bukantz, S. C., *see* de Gara, P. F., 376
Bullowa, J. G. M., *see* de Gara, P. F., 376
Burns, cutaneous, 293
  E. L., *see* Stasney, J., 191
Butterworth, J. S., and Poindexter, C. A., formol-gel test in rheumatic fever, 278
B vitamins, studies of, in human subject, III, 114; IV, 388; V, 569

C

Cain, J. C., and Belk, W. P., assimilation rate of intravenously injected glucose in hospital patients, 359
Calabresi, M., *see* Geiger, A. J., 219
Calcium bile; clinical and pathological study, 413
  salts and activated sterols in treatment of parathyroid tetany, 726
Cancer, skin, and solar radiation, relation of pernicious anemia to, 854
Cardiac murmurs, note on; recommendation for revised terminology, 52
Carotid and aortic body reflexes in unanesthetized dogs, 779
Castle, W. B., *see* Fox, H. J., 18
Catarrhal illness, reduction of industrial absenteeism by preseasonal immunization against, 469
Cavity healing and bronchial occlusion, 177
Cell division, 467

Cellular, vascular and, dynamics of shock, 1
Cerebellum and labyrinth, 154
Cerebral lesions, fatal hyperinsulinism with, due to pancreatic adenoma, 363
Chambers, L. A., study of viruses and proteins with electron microscope, 779
Chancre of gum; case report, 397
Chaulin-Servinière, J., *see* Leblond, C. P., 100
Chemoreceptor and central control of respiration, influence of anesthetics on balance between, 777
Chemotherapy, prognosis of pneumococcic meningitis treated with, 370
Cheney, G., normal plasma coagulation time, 325
Chick embryo, effect of liver extracts upon erythropoiesis in, 843
Choline and acetylcholine, electrical potential of, in "oil" cells, 913
Chornock, C., *see* Elsom, K. O'S., 569
Circulation, effect of drugs on, in normal hands and feet, 882
time, lobeline, effect of barbituric acid derivative on, 349
Citrated blood in man, observations on oral administration of, II. Effect on stools, 409
Clinical studies with aid of radiophosphorus. II. Retention of radiophosphorus by tissues of patients dead of leukemia, 529
Clinico-pathologic correlation between hepatic damage and plasma prothrombin concentration, 665
Clubbing, agnogenic congenital, of fingers and toes, 241
Coagulation time of normal plasma, 325
Cohn, A., Steer, A., and Seijo, I., correlation between clinical and *in vitro* reactions of gonococcus strains to sulfathiazole; preliminary report, 276
I., *see* Pelner, L., 340
Comroe, B. I., *see* Hoffman, H. T., 731
J. H., Jr., and Schmidt, C. F., respiratory reflexes from limbs, 466
see Watt, J. G., 779
Conditioned reflex therapy of alcoholic addiction, V. Follow-up report of 1042 cases, 525
Congo red test, standardization of, for amyloidosis, 246
Convulsion therapy, electric, in psychoses, 354
Convulsions, electrically induced, in treatment of mental disorders, 147
Coronary thrombosis in young diabetic, 792
Cor pulmonale, Part I of hypertension electrocardiograms experimentally produced and anatomically explained, 625
Craib, D., *see* White, P. D., 52
Crider, J. O., and Thomas, J. E., effect of vagotomy on secretory response of pancreas to peptone, 155
Cruz, W. O., and Robscheit-Robbins, F. S., relationship between spleen and morphologic picture of blood regeneration, 28
Hawkins, W. B., and Whipple, G. H., acetylphenylhydrazine anemia, 2. Bile pigment elimination, etc., 848
Cutaneous burns, 293
Cystic fibrosis of pancreas, 900

D

Dalton, L., *see* Somerfeld-Ziskind, E., 110
Dameshek, W., and Wolfson, L. E., preliminary report on treatment of agranulocytosis with sulfathiazole, 819
Daniels, W. B., bronchopneumonia of unknown etiology in a girls' school, 263
Dark adaptation of single visual nerve cells, 467
Davenport, H. W., mechanism of secretion of sulfanilamide by gastric mucosa, 777
DeEds, E., toxicity of fluorine in dicalcium phosphate, 687
de Gara, P. F., Bullowa, J. G. M., and Bukantz, S. C., pneumococcal capsular polysaccharide and antibody in pleural exudates, 376
Dermatitis from topical application of 2-methyl-1:4-naphthoquinone (synthetic vitamin K analogue), 566
Dermatology, photodynamic effects in, Part 1, 608
Diabetes mellitus and tuberculosis, 490
insipidus, amount of iodine in blood and urine in patients with, 708
Diabetic, young, coronary thrombosis in, 792
Diagnosis, rôle of roentgenologic examination in, 766
Dicalcium phosphate, toxicity of fluorine in, 687
Diet and meals, effect of, on maximum urea clearance, 253
Digestive tract, abnormal accumulations of lymph follicles in, 823
Digitalis, clinical value of, in hypertensive heart failure, I, 741; II, 747
Dill, L. V., *see* Isenhour, C. E., 333
Diuretics, mercurial, systemic reactions to, 884
Doane, J. C., and Pressman, R., antemortem diagnosis of tumors of heart, 520
Dripps, R. D., Jr., and Dumke, P. R., influence of anesthetics on balance between chemoreceptor and central control of respiration, 777

Drugs, effect of, on circulation in normal hands and feet, 882
influence of certain commonly used ones on rate of gastric emptying in normal human subject as determined by intubation technique, 311
Duff, G. L., pathology of islet cell tumors of pancreas, 437
Dumke, P. R., *see* Dripps, R. D., Jr., 777
see Watt, J. G., 779
Duodenum, descending, activity of, during nausea produced by caloric stimulation of semicircular canals, 776
Dynamics, vascular and cellular, of shock, 1

E

Ebaugh, F. G., *see* Lowry, J. V., 120
Eckstein, A., *see* Taran, A., 246
D., *see* Lisa, J. R., 801
Eggleston, C., and Gold, H., what the U. S. Pharmacopœia XII means to the physician, 759
Eichhorn, J. P., immediate feeding *versus* initial starvation in treatment of bleeding peptic ulcer, 428
Electric convulsion therapy in psychoses, 354
Electrical potential of acetylcholine and choline in "oil" cells, 913
Electrocardiograms, hypertension, experimentally produced and anatomically explained, I. Cor pulmonale, 625; II. Left ventricular strain, 634
studies on distribution of potential concerned in formation of, 641
Electrocardiography in hospital practice, justification for increasing use of, 219
Electromyogram, treatment of muscular atrophies with vitamin E, with note on, 558
Electron microscope, bacterial cell as shown by, 778
studies with, 778
study of viruses and proteins with, 779
Elsom, K. O'S., Reinhold, J. G., Nicholson, J. T. L., and Chornock, C., studies of B vitamins in human subject, V. Normal thiamine requirement, etc., 569
see O'Shea, H. E., 388
Endocarditis, brucella, case of, with clinical, bacteriologic, and pathologic findings, 797
Engelhardt, H. T., *see* Sodeman, W. A., 812
Eosinophilic granuloma and certain other reticulo-endothelial hyperplasias of bone, etc., 673
Erf, L. A., and Tuttle, L. W., phosphorus metabolism of blood of patients with leukemia and polycythemia, 83
Erf, L. A., and Tuttle, L. W., clinical studies with aid of radiophosphorus, II. Retention of radiophosphorus by tissues of patients dead of leukemia, 529
Erythrocytes of immature opossum (*Didelphys virginiana*), influence of active and inactive antianemic principles upon, 191
Erythropoiesis, effect of liver extracts upon, in chick embryo, 843
Etzel, E., may disease complex that includes mega-esophagus (cardiospasm), megacolon and mega-ureter be caused by chronic vitamin B_1 deficiency? 87
Excitatory process in nerve, periodicity of, 155
Expectorant action of iodides, studies of, 717
Extracellular fluid volume in man, its measurement and relation to season, 914

F

Fabricant, N. D., present rôle of vitamins in otolaryngology, 600
Falconer, E. H., treatment of polycythemia vera with lead compounds, 857
Familial aggregation in poliomyelitis, 452
Farr, L. E., McCarthy, W. C., and Francis, T., Jr., plasma amino-acid levels in health and in measles, scarlet fever and pneumonia, 668
Feeding, immediate, *versus* initial starvation in treatment of bleeding peptic ulcer, 428
Fever, rheumatic, formol-gel test in, 278
Fibrillation, auricular, age, sex and race relationships of, 788
Fibrosis, cystic, of pancreas, 900
Fingers and toes, agnogenic congenital clubbing of, 241
Fishback, D. B., Guttman, S. A., and Abramson, E. B., objective method of determining blood velocity (fluorescein method), 535
Flaxman, N., clinical value of digitalis in hypertensive heart failure, I, 741; II, 747
(Fluorescein method), objective method of determining blood velocity, 535
Fluorine in dicalcium phosphate, toxicity of, 687
Folley, J. H., and Abbott, W. O., influence of certain commonly used drugs on rate of gastric emptying in normal human subject as determined by intubation technique, 311
Forelimbs, aneurogenic, transplanation of, in amblystoma punctatum, 915
Formol-gel test in rheumatic fever, 278
Fox, H. J., and Castle, W. B., observations on etiologic relationship of achylia gastrica to pernicious anemia, IX, 18

Francis, T., Jr., *see* Farr, L. E., 668
Freyberg, R. H., *see* Smyth, C. J., 580
Friess, C., and Nelson, M. J., psychoneurotics five years later, 539

G

Gallagher, J. R., insufficiency of immune globulin in prophylaxis of measles during adolescence, 880
Garvin, C. F., age, sex and race relationships of auricular fibrillation, 788
infarction in heart disease, 473
Gastric emptying, influence of certain commonly used drugs on rate of, in normal human subject as determined by intubation technique, 311
mucosa, mechanism of secretion of sulfanilamide by, 777
Geiger, A. J., Calabresi, M., and Blaney, L. F., justification for increasing use of electrocardiography in hospital practice, 219
Giffin, H. Z., *see* Beizer, L. H., 829
Girls' school, bronchopneumonia of unknown etiology in, 263
Globulin, immune, insufficiency of, in prophylaxis of measles during adolescence, 880
Glomerulonephritis, 134
immunologic investigation of mechanism of, 310
Glucose, intravenously injected, assimilation rate of, in hospital patients, 359
Gold, H., *see* Eggleston, C., 759
Goldman, D., and Baber, E. A., electric convulsion therapy in psychoses, 354
Goldsmith, M., *see* Boharas, S., 54
Gonococcus strains to sulfathiazole, correlation between clinical and *in vitro* reactions of; preliminary report, 276
Goodman, S., *see* Schiff, L., 409
Goudsmit, A., and Louis, L., extracellular fluid volume in man, its measurement and relation to season, 914
Granuloma, eosinophilic, and certain other reticulo-endothelial hyperplasias of bone, etc., 673
Greeley, P. O., *see* Martin, H. E., 402
Greenwood, W. R., *see* Reitman, N., 792
Gross, P., and Jacox, H. W., eosinophilic granuloma and certain other reticulo-endothelial hyperplasias of bone, etc., 673
Gruenwald, P., abnormal accumulations of lymph follicles in digestive tract, 823
Gum, chancre of; case report, 397
Gundersen, T. E., *see* Viets, H. R., 558
Gurin, S., and Wilson, D. W., metabolism of alanine containing C^{13}, 466
Guttman, S. A., *see* Fishback, D. B., 535

H

Hall, B. E., *see* Beizer, L. H., 829
Hamilton, R. H., Jr., *see* Spiegel-Adolf, M., 309
Hands and feet, normal, effect of drugs on circulation in, 882
Hartline, H. K., and McDonald, R., dark adaptation of single visual nerve cells, 467
Hawkins, W. B., *see* Cruz, W. O., 848
Hay fever, ragweed, patient, method of determining probability of constitutional reactions during treatment of, 383
Hays, E. E., Last, J. H., and Koeh, F. C., effect of liver extracts upon erythropoiesis in chick embryo, 843
see Last, J. H., 836
Heart, antemortem diagnosis of tumors of, 520
disease, infarction in, 473
failure, hypertensive, clinical value of digitalis in I, 741; II, 747
in sickle cell anemia, 34
Hebald, S., *see* Sherman, W. B., 383
Hemoglobin and plasma proteins: their production, utilization and interrelation, 477
Hemolysinic, auto-, anemia, improvement after splenectomy, 313
Hemolytic staphylococcus, effect of various sulfonamides on, measured with manometric technique, 172
Henny, G. C., *see* Spiegel-Adolf, M., 309
Hepatic damage and plasma prothrombin concentration, clinico-pathologic correlation between, 665
Histopathologic prognosis of salivary gland mixed tumors, 502
Hoffman, H. T., Lees, H. D., and Comroe, B. I., use of sulfathiazole in infectious mononucleosis, 731
Hollander, G., prognosis of pneumococcic meningitis treated with chemotherapy, 370
L., *see* Boharas, S., 54
Hornbaker, J. H., chronic leukemia in three sisters, 322
Hospital patients, assimilation rate of intravenously injected glucose in, 359
practice, justification for increasing use of electrocardiography in, 219
Human subject, studies of B vitamins in, III, 114; IV, 388; V, 569
Hyperinsulinism, fatal, with cerebral lesions due to pancreatic adenoma, 363
Hyperplasias, reticulo-endothelial, of bone, eosinophilic granuloma and certain other, etc., 673
Hyperpyrexia, sustained controlled, improved method of obtaining, with triple typhoid vaccine, 736

Hypertension electrocardiograms experimentally produced and anatomically explained, I. Cor pulmonale, 625; II. Left ventricular strain, 634
incidence of, effect of parity on, and on average blood pressure, 333
persistent, bilateral renal disease in, 807
reactions of peripheral vessels of rabbits in, and in response to injections of angiotonin, 914
Hypertensive heart failure, clinical value of digitalis in, I, 741; II, 747
Hypoprothrombinemia in pernicious anemia, 187

I

Immune globulin, insufficiency of, in prophylaxis of measles during adolescence, 880
Immunization, preseasonal, against catarrhal illness, reduction of industrial absenteeism by, 469
Immunologic investigation of mechanism of glomerulonephritis, 310
Industrial absenteeism, reduction of, by preseasonal immunization against catarrhal illness, 469
Infarction in heart disease, 473
Infectious diseases, common acute, histologic kidney changes in, 65
mononucleosis, use of sulfathiazole in, 731
Ingelfinger, F. J., and Moss, R. E., activity of descending duodenum in man during nausea produced by caloric stimulation of semicircular canals, 776
Insulin, protamine zinc, duration of action and activity of different size doses of, 402
shock, protracted, vitamin B_1 not helpful in, 110
Intestine and chronic arthritis, 698
Intubation technique, influence of certain commonly used drugs on rate of gastric emptying in normal human subject as determined by, 311
Iodides, studies of expectorant action of, 717
Iodinated amino acids and proteins, Roentgen ray diffraction studies in, 309
Iodine, amount of, in blood and urine in patients with diabetes insipidus, 708
Iontophoresis, evaluation of, using different vasodilating drugs for treatment of rheumatoid arthritis, 580
Isenhour, C. E., Kuder, K., and Dill, L. V., effect of parity on average blood pressure and on incidence of hypertension, 333
Islet cell tumors of pancreas, pathology of, 437

J

Jacox, H. W., *see* Gross, P., 673
Janeway, C. A., *see* Williams, R. H., 157
